help your practice**

APTA Practice Advisory: Screening Patients for Anxiety and Depression

The US Preventive Services Task Force recently released its final recommendations that primary care clinicians, including physical therapists and physical therapist assistants, screen for anxiety and depression for all people aged 8-64. To learn more about these recommendations and how this may affect your practice, click [here](#).

ANPT Podcast Site

Did you know you can find all of the ANPT Podcasts in one place? Here, you can listen to the Stroke SIG podcast along with podcasts from other SIGs and ANPT groups! Check it out!
